HAT DESIGN WORKS™
HUMAN ACTIVE TECHNOLOGY

DRIVE-THRU PAYMENT SOLUTIONS

BUILT FOR PURPOSE, BUILT TO PERFORM.

ABOUT US

HAT Design Works manufactures rugged, modular now payment mounts built to perform in high-volume drive-thru environments. Our solutions support today's leading payment terminals – including **Ingenico**, **PAX**, **Equinox**, **Verifone**, and more – while protecting your investment and improving customer experience.

By allowing guests to keep their card in hand during the transaction, HAT mounts help:

- Increase customer trust and payment security
- Reduce liability and risk of card data theft
- Improve speed and flow at the drive-thru
- Create a more accessible, inclusive experience

Built for daily use, hard conditions, and future technology upgrades, HAT Design Works drive-thru payment solutions are a long-term investment that delivers fast ROI – one transaction at a time.

STEP 1

CHOOSE A MOUNT

Designed for quick-service restaurants, our PTS-WM modular mounts securely position payment terminals at the drive-thru window, reducing accidental drops, costly replacements, and service interruptions.

STEP 2

ADD AN EXTENSION ARM

Bring the payment device directly to the customer – no awkward reach, no hand-offs, no risk.

STEP 3

ADD HEIGHT ADJUSTABILITY

Accommodate to vehicles of all sizes.
